Learning Outcomes

Upon completion of this course students will be able to

- evaluate findings from secondary research related to current public policy issues.
- explain the trade-off between efficiency and fairness as it relates to specific public policy and Canadian business.
- apply the normative approach to government policy.
- apply the positive approach to government policy.
- analyze the economic implications associated with government policy initiatives.
- explain the impact of government policy initiatives on Canadian business.
- recommend new public policy alternatives to political leaders and prepare a scholarly argument to support these new initiatives.
